Professional Summary

Full-stack developer and Computer Science student with hands-on experience building web applications, developer tools, Linux desktop software, and open-source projects. Strong focus on TypeScript and Python, with experience across frontend development, backend APIs, databases, Linux systems, containers, and self-hosted infrastructure. Community Lead of the Azerbaijan GitHub Community and active contributor to open-source software.

Experience

Founder & Full-Stack Developer — Omicron

Jun 2026 – Present

- Building a minimal, modern, self-hostable blogging platform with ActivityPub federation.
- Developing across the application stack with TypeScript and modern web technologies.

Community Lead — Azerbaijan GitHub Community

Jan 2026 – Present

- Lead a local developer community focused on GitHub, open source, collaboration, and developer education.
- Maintain community initiatives and contribute to the community website.

Linux Developer — Kiber Təhlükəsizlik Platforması / Turan Linux

May 2020 – Jun 2024

- Worked on Linux-focused software and development activities over multiple years.
- Built practical experience with Linux environments, system tooling, and open-source software.

Member of Corporate Relations — ESTIEM LG Baku

Mar 2025 – Feb 2026

- Built corporate partnerships, managed communications, and developed negotiation and stakeholder-management skills.

Selected Projects

Omicron — TypeScript, ActivityPub. Self-hostable blogging platform built around federation and the Fediverse.

Webmius — TypeScript, SSH. Web-based SSH management system for managing remote servers through a web interface.

Gazan — Python, GTK4, Linux. Desktop application for browsing, uploading, downloading, and managing cloud files.

Kagi Translate MCP — TypeScript, MCP, API. Model Context Protocol server that exposes Kagi Translate to MCP clients.

Azerbaijan GitHub Community Website — TypeScript. Website built and maintained for the Azerbaijan GitHub Community.

X to Mastodon Bot — JavaScript, API. Automation tool that mirrors posts from X to Mastodon.

Technical Skills

Languages:

 **TypeScript**  **JavaScript**  **Python**  **Ruby**
